Championship Grade: D  
Organising Permit Status: Interclub

**2026 Honda Championship - Pooled Engines Procedure**

For Honda, from Round 3 onwards, the current top three Honda GX200 Championship ranked Competitors entered into and competing at each Event will be required to use a Championship supplied pooled engine. The Engine must be used from Free Practice 1 for the duration of that Event.

Competitors will select their pooled engine at random by ballot, which will take place at a time and location determined in the Event Documentation. Engines will be available for collection immediately following the Ballot. Pooled engines must be returned at the end of the Event clean and as supplied. CR 4.4.4.5 applies.

It may be possible for Competitors to request to change their pooled engine for another to be randomly selected from the remaining pool. Such requests must be made demonstrating full justification and the granting of such a request will be at the discretion of a Championship Official whose decision will be final. It will not be possible to change a pooled engine more than once during each Event.
